

Re(duce)-Re(use)-Re(cycle)-Party

Budapest, Hungary

Project Concept :

- Gathering eco-mind civic people to use waste – derived from overconsumption - in a triple-creative way;
- by clothes -exchange + by recycling artists' workshop + by promoting the poor.
- Developing a network to share, to exchange (non)-material assets, experiences, good practices and
- Broadening green activities from local level to national/ EU level.

Potential benefits of the project

- Reducing waste by swapping clothes and household goods
- Recycling waste through recycling artists' workshops
- Raising charity by promoting the marginalised people
- Encouraging eco-mind people to be involved into the on/offline sharing community of our common treasure
