

Round III

**Magyar
Természetvédők
Szövetsége**
Föld Barátai Magyarország

Dear Team,

the last mission has come!

Congratulations, thanks to you the lead expert of the expedition was able to complete the final report about the expedition in time. He is now at home to present the results, learnings of the expedition for the national public. As your teamwork has contributed significantly to the success of the expedition, he would like to involve you into the presentation of results as well. So how could you be part if the expedition promo show?

For your school/college the Team need to present the results, experiences of the expedition - that your team finds most important, relevant or most interesting, based on the first 2 rounds. The material and its presentation method is totally up to you but it needs to be made only by the Team. Rely n your creatvity - you can p.eg. prepare a poster or a cartoon, a videoclip or short interviews, or either write a poem, song or slam poetry, or you can organize a thematic action day or a workshop at the school/college or anywhere etc. Your team needs to reach as many people from your school/college as possible. You do not need to present all key information in the material and its presentation, only those ones that the team finds relevant/important.

What to send in - not an answer sheet this time...

To the lassamelyere@mtvsz.hu e-mail address we need the following till 29 May:

- the material your Team prepared and presented (photo/video/pdf file format)
- documentation about the presentation of this material at your school/college (photo/video/pdf file format)

If the total size of te files exceed 5Mb please send them zipped and by email transfer system like wetransfer.com to ensure that all files go through.

Good luck for
this last mission!
