

“Scones baked in ash”

Nyíregyháza Hungary

Future near home society. / Inspi-Ration Association

Project Concept

- We believe that the process of globalization should be exceeded not disclaimed.
- As a result we concentrate on the revival of local social and economic relationships by e.g. urban gardening, community rental system, and book-exchange, local currency

Potential benefits of the project

- Human relationships are strengthening
- New communities are built
- While organizing conferences, presentations the participants’ learning abilities might develop as individuals and as a community as well
- The structure of the local production and consumption might change, serving local interests more
- New communities e.g. LETS groups, groups working in urban gardening might ease the situation of unemployed people
