

Repair For Yourself!

Pécs/Hungary

Eszter Szénási/Hungarian Green Roots

Project Concept

- Communal service workshop: introducing creative ideas and tips, repairing and reforming unused, defective tools and objects (games, bikes, household machines etc.)
- Art service workshop: recycled decorations for theatrical productions
- common environmental action through street improvisation workshops, adventure therapy, theatre workshops
- Addressing young people of marginalised, seriously disadvantaged status

Potential benefits of the project

- Providing useful and practical knowledge
- Providing creative and useful activities
- Developing social and technical competences
- Reduction of environmental load
- Shaping and creating environmental awareness of young people
- Strengthening existing relationships and supporting the development of new communities
